I am writing from the Atlantic Forest of Brazil to give the biggest thanks I can offer for selecting me for, and sponsoring me on, this Earthwatch fellowship. The work has been both enlightening and inspiring. I am beyond excited to bring back some of the lessons I have learned and to put into action the ideas that have been cultivated here as I've worked with the project scientists and other teachers from all over the country.

Attached are a few pictures to give you an idea of what I've been up to so far. Please let me know if there is any other way I can share my gratitude for being given this opportunity.

All The Best,

Cory
